

Women's Connector Program

St. Louis Mosaic Project

Goal: International women who come to St. Louis through a corporate move (associate or spouse) will be invited to attend a meeting of The Woman's Club of Washington University. Each international woman will have a local woman who will sponsor her for her first visit as a guest to an event. The guest will be invited to become a member of the The Woman's Club of Washington University.

The Woman's Club has a tradition of education, service, and friendship for over 100 years. We pride ourselves in providing stimulating programs and activities for our members as well as service to the Washington University community.

Sample year-long events:

- Welcome lunch hosted by the Chancellor's wife
- Dinner at campus restaurant with a performance at the Edison Theater
- Panel Programs/discussions with local leaders: "Meet the Leaders" co-hosted with the Gephardt Institute
- Four annual luncheons with guest speakers
- Service project with the American Red Cross
- Visit to local museums with exclusive study sessions with curators
- Interest groups and service activities to learn about gardening, join a book club, play bridge, or visit a special site in St Louis
- Connection with International Women's Group, whose husbands or partners are students or fellows of the university

For full range of opportunities: www.womansclub.wustl.edu

We work with Anthony Bartlett of St. Louis Transplants and recommend joining at www.stltransplants.com.

To participate, please contact:

Betsy Cohen, Director of St. Louis Mosaic Project
314-615-8107, ecohen@worldtradecenter-stl.com

or Yashika Sharma Ph.D., Ambassador Program Coordinator
636-273-9399, yashika.sharma@hotmail.com

St. Louis Mosaic Project goal: St. Louis region to have fastest growth of foreign-born of major metros by 2020
